

## Instructions for Adding BookFlix Web Buttons

Adding a *BookFlix* button to your web page is a simple operation. It requires that you download a self-extracting ZIP file. When this is run, it will place a *bkflix\_buttons* folder on your desktop that contains button images for the BookFlix product. You would then upload this folder to your Web site and use the code snippet below to display the button on your Web page.

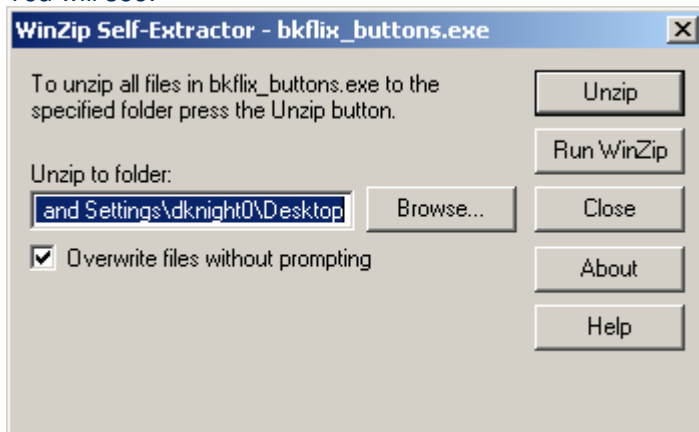

These instructions assume you have the ability to upload and manage code on your Web site.

With a web browser, download the self-extracting zip from:

[http://ipinfo.grolier.com/go\\_downloadables/bookflix\\_buttons/bkflix\\_buttons.exe](http://ipinfo.grolier.com/go_downloadables/bookflix_buttons/bkflix_buttons.exe)

1. When prompted, choose to save this file to your Desktop.
2. Click Close when download is complete.
3. Double-click on the **bkflix\_buttons.exe** that is now on your Desktop.

You will see:

4. Click Browse and choose "Desktop" (at the top of the list).
5. Click Unzip.
6. Once the file has extracted successfully, click OK.
7. Click Close.
8. You will now have the **bkflix\_buttons** folder on your Desktop. Upload this folder to your Web site.
9. Copy and paste the below html code into your Web page code:

```
<a href="http://bkflix.grolier.com/"></a>
```
